

Minister for Climate Change and Energy Efficiency

~~CABINET-IN-CONFIDENCE~~

The Hon Julia Gillard MP  
Prime Minister  
Parliament House  
CANBERRA ACT 2600

20 JUN 2011

Dear Prime Minister

I am writing to advise you of arrangements relating to a future carbon pricing announcement.

These arrangements have been put in place to ensure that all information prepared for the announcement is consistent and cohesive.

I would encourage you to circulate this letter to officers in your portfolio who are involved in the preparation of material relating to the carbon pricing package as soon as possible.

#### PRODUCTS FOR ANNOUNCEMENT

My Department, together with the Treasury and other Departments, is preparing a suite of materials for release as part of a carbon pricing announcement. A list of the proposed documentation is attached to this letter and has been agreed with the Deputy Prime Minister and Treasurer.

If you or your Department would like to propose that additional materials be prepared for the announcement, I ask that your office contact Rod Hilton in my office, who is responsible for ensuring that production of these materials is well-coordinated.

Helen Wilson, who is the Assistant Secretary (Carbon Pricing Project Coordination Branch) from my department will be seeking input to these products from your and other departments as appropriate.

The Prime Minister, Deputy Prime Minister and I are committed to ensuring this announcement demonstrates the comprehensive set of climate change initiatives underway across the Government, and I ask that your department prioritise requests for information relating to the carbon pricing package in coming weeks.

#### CLEARANCE PROCEDURES

Mark Davis will be coordinating clearance processes for all materials and will take the lead on providing consolidated editorial changes from across the Government to my Department.

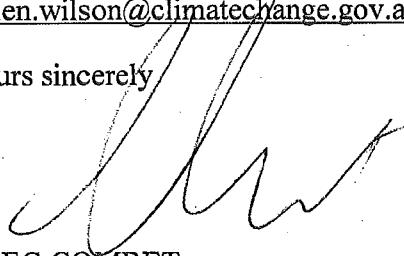

I ask that your office advise Mark Davis as soon as possible of a relevant clearance contact in your office. He can be reached at [m.davis@climatechange.gov.au](mailto:m.davis@climatechange.gov.au)
