Start-up Incubator Support Initiative	Department of Industry, Science, Energy and Resources	The \$23 million Incubator Support Initiative has improved the prospects of innovative Australian start-ups by developing their market capabilities and connecting them with quality research, managerial and technical talent. The Government committed a further \$5 million to the Initiative in 2019 to support first-generation migrants and refugees to establish a start-up and achieve commercial success in international markets. Applications under the Incubator Support First-	[Insert updated content to replace the current content on the website. If there are no updates since the last update, please write 'no change']

36	C-002067	Expand the Incubator Support Initiative to Help Entrepreneurs and Refugees	The Coalition has committed \$5 million over four years from 2019-20 to expand the Incubator Support Initiative under the Entrepreneurship Program to assist entrepreneurs and refugees to establish start-up businesses. New grants will support those organizations best placed to deliver targeted business education, incubation and mentoring to people from culturally and linguistically diverse (CALD) backgrounds, and to provide advice on how to establish and manage a start-up business.	Finalist - Successful grantee located a rural Australian
