Dear s22(1)(a)(ii)

Thank you for your email. Please accept my apologies for the late reply. s22(1)(a)(ii)

Could I please direct you to s22(1)(a)(ii) who you refer to in the email below. s22(1)(a)(ii) may be better placed to assist you in your enquiries. s22(1)(a)(ii) can be contacted on s22(1)(a)(ii) s22(1)(a)(ii)

Regards,

s22(1)(a)(ii)

Dear s22(1)(a)(ii)

Further to my message below, we have been advised by our GE contact that the CO for the field engineers they liaised with was s22(1)(a)(ii). I hope this assists you with your enquiries. Have you been able to put together anything useful yet? We are looking at recommending a further group of organisations to be determined as eligible for the HOSM in the near future, and if eligible, it would be good to be able to include this group at the same time.

Regards,

s22(1)(a)(ii)

 Subject: Tsunami HOSM - request for engineering contact [SEC=UNCLASSIFIED / NO CAVEATS]

Dear s22(1)(a)(ii)

I've been given your details by s22(1)(a)(ii) as the person I should deal with on HOSM issues. I am responsible for administering the regulations for the HOSM, and my section actually processes the applications before they are recommended for the Governor-General's approval. We also answer enquiries from eligible, or potentially-eligible, organisations.

We've received an approach from Australian employees of a US Corporation (General Electric) which donated and installed water purification plants in Sumatra following the Indian Ocean tsunami. The Australians appear to satisfy the time, location and purpose criteria for the HOSM. The approach makes frequent reference to co-operation GE received from Australian Army engineering (e.g. provision of heavy moving equipment to assist installation, local liaison, etc). To properly consider the potential eligibility of these people for the HOSM we need to understand the nature of linkages with the broader Australian aid effort, and in particular, linkages with the ADF's operation.

I'd be grateful if you could call me to discuss this, or provide contact details for someone who would have a detailed knowledge of the facts.

Cheers,

s22(1)(a)(ii)

Dear s22(1)(a)(ii)

Unless I've missed something, I've heard nothing in response to my message below. Have you been able to find someone I could talk to about the role of GE Corporation in Australia's operations in Sumatra? A contact for s22(1)(a)(ii) would be useful so that I could attempt to corroborate information and get a feel for whether GE was integral to the Australian operation or not.

However, I can take this matter no further without first talking to someone who was in a position of authority on the ground. Please let me know if there is a problem with this request that I might not be aware of.

Regards,

s22(1)(a)(ii)

Hi s22(1)(a)(ii)

We've received an approach from Australian employees of a US Corporation which donated and installed water purification plants in Sumatra. The Australians appear to satisfy the time, location and purpose criteria for the HOSM. The approach makes frequent reference to co-operation they received from Australian Army engineering (e.g. provision of heavy moving equipment to assist installation, liaison, etc). To properly consider the potential eligibility of these people for the HOSM we need to understand the nature of linkages with the broader Australian aid effort, and in particular, with the ADF's operation.

We'd be grateful if you could provide contact details for a relatively senior person in the engineering element of Op Sumatra Assist. If you need any more background please call me.

Cheers,

s22(1)(a)(ii)
