I request under the FOI Act the number of visits by PM&C devices to the openai.com domain from 1 December 2022 to 30 June 2023.

Response

In response to the applicant's request, the Department can provide the following information:

The Department operates a shared services arrangement for IT services, and is not able to readily distinguish web traffic of PM&C devices, from that of other shared service entities. The information available represents the combined number of visits to the domain for the relevant period.

There were 642 hits attributed to the domain *openai.com* during the period 1 December 2022 to 30 June 2023. As a general matter, a hit is a request for a file such as a web page, image, javascript, or CSS hosted on a web server. A single visit to a website may result in many hits depending on the complexity of a particular webpage, and how many resources it requires to be downloaded in order to display.
