Deadline: 8 August
Enquiry: There are some new claims going around on social media about the Uluru Statement that it is not a one-page document but instead a 26-page document, and the other 25 pages were uncovered via an FOI request. We have looked into similar claims before, in regard to the 'secret' NIAA FOI docs, but I wondered if you could help with this one please, by providing some simple clarification about the FOI request. This new claim seems to be spreading quite quickly on social media. The FOI in question is FOI/2223/016 (the same March one previously misused for certain claims) which requested all minutes and outcomes from regional dialogue events. On the NIAA disclosure log , it has the wording of the FOI listed. Would you please be able to help us debunk this claim by clarifying exactly what 'document 14' in that request related to? That's all I need to know, thanks. Just what 'document 14' covered in the response to that FOI.
Status: A response is being drafted.
