Fuel Supply Coordinator

- FSCG met today [REDACTED] s 47C , s 47E(d)
[REDACTED] s 47C , s 47E(d) The next FSCG meeting will be held on Friday 8 May, and will include an update from ONI.
 - From next week, FSCG meetings will be held once a week on Tuesday mornings.
- The Coordinator will meet with the Australian Energy Council, BCA and the Alliance CEO Group later this week.
- Work continues with DITRDCSA to ensure the messaging of the national fuel campaign aligns with government policy and fuel plan stages.
- Request made to NOSEC to prepare advice on obtaining better data about liquid fuels demand.

Key Government Actions

Commonwealth Government

- 4 May 2026 – issued a Joint Statement on Energy Security Cooperation with Japan committing to mutual energy security and to rules-based and market-oriented trade and investment.
- 30 April 2026 – issued a Joint Statement on Energy Resource Security with the Republic of Korea committing to work together to maintain a stable, secure and reliable supply of diesel and other liquid fuels.
- 22 April 2026 - announced over 200 million litres of additional diesel for Australia underwritten by Export Finance Australia, coming from Brunei, Malaysia and South Korea.
- 20 April 2026 - announced the Economic Resilience Program, through the National Reconstruction Fund providing \$1 billion in zero-interest loans for manufacturing or logistics businesses.
- 17 April 2026 - announced 250,000 tonnes of additional grade urea from Indonesia secured for Australian farmers.
- 16 April 2026 - announced 100 million litres of additional diesel from Brunei and South Korea, secured under new strategic reserve powers for Australia.
- 2 April 2026 - announced \$6.15 billion in concessional financing to support Australian businesses affected by global disruptions.
- 2 April 2026 - announced states and territories have agreed to provide a further \$400m of fuel relief, to be delivered through an additional 10.9 per cent cut to fuel excise for 3 months.
- 1 April 2026 - announced temporary relief for businesses for tax obligations and access to credit.
- 31 March 2026 - Treasurer wrote to the ACCC chair regarding the halving of the fuel excise.

~~PROTECTED: CABINET~~

~~PROTECTED: CABINET~~

- 30 March 2026 - announced the National Fuel Security Plan, following agreement by National Cabinet; and halved the fuel excise to 26.3 cents per litre and reduced the heavy vehicle road user charge to zero for three months.
- 24 March 2026 - temporarily amended diesel quality standards to allow lower minimum flash point level supporting access to international supply and facilitating domestic diesel production.
- 20 March 2026 - amended Fuel Security Service Payment (FSSP) increasing support for domestic refineries.
- 13 March 2026 - temporary 20% reduction to the MSO to release up to 762 million litres of petrol and diesel from domestic reserves to the local market.
- 12 March 2026 - temporarily relaxed fuel standards for petrol allowing higher sulphur levels until 31 May 2026 to boost supply by around 100 million litres monthly.
- 11 March 2026 - increased ACCC powers through doubled maximum penalties for price gouging and anti-competitive behaviour as well as national weekly fuel price monitoring.
- 22 December 2025 - intention to establish Domestic Gas Reservation Scheme.

State and Territory

- Public Transport: Victoria and Tasmania have announced free public transport for 2 months and 3 months respectively. The ACT has halved its maximum monthly cap on the number of paid trips on public transport for 12 weeks.
- Freight: NSW has introduced temporary freight measures to keep goods moving and help ease fuel pressures. Victoria is supporting freight businesses to invest in low and zero-emission vehicles, infrastructure and technology.
- Fuel supplies: WA has struck a deal with local independent fuel supplier Cambridge Gulf to purchase and store 4 million litres of diesel in the Kimberley. Tasmania has also announced they are working to establish their own strategic fuel reserve.

- Work continues with DITRDCSA to ensure the messaging of the national fuel campaign aligns with government policy and fuel plan stages.
- Request made to NOSEC to prepare advice on obtaining better data about liquid fuels demand.

Key Government Actions

Commonwealth Government

- 6 May 2026 – announced an Australian Fuel Security Resilience Package to be included in the 2026-27 Budget, consisting of \$7.5 billion to establish the Fuel and Fertiliser Security Facility; \$3.2 billion to establish a Government-owned Australian Fuel Security Reserve; and \$10 million to support feasibility studies into new or expanded refining capacity.
- 4 May 2026 – issued a Joint Statement on Energy Security Cooperation with Japan committing to mutual energy security and to rules-based and market-oriented trade and investment.
- 30 April 2026 – issued a Joint Statement on Energy Resource Security with the Republic of Korea committing to work together to maintain a stable, secure and reliable supply of diesel and other liquid fuels.
- 22 April 2026 - announced over 200 million litres of additional diesel for Australia underwritten by Export Finance Australia, coming from Brunei, Malaysia and South Korea.
- 20 April 2026 - announced the Economic Resilience Program, through the National Reconstruction Fund providing \$1 billion in zero-interest loans for manufacturing or logistics businesses.
- 17 April 2026 - announced 250,000 tonnes of additional grade urea from Indonesia secured for Australian farmers.
- 16 April 2026 - announced 100 million litres of additional diesel from Brunei and South Korea, secured under new strategic reserve powers for Australia.

State and Territory

- Public Transport: Victoria's public transport is free for 2 months until 31 May 2026, and the price will be halved from 1 June 2026 until 1 January 2027. Tasmania's public transport is free for 3 months until 30 June 2026. The ACT has halved its maximum monthly cap on the number of paid trips on public transport for 12 weeks until 30 June 2026.
- On 11 May 2026, the Queensland Government fast-tracked bp's lease extension at the Bulwer Island facility at the Port of Brisbane to secure additional fuel storage.
- On 11 May 2026, the Victorian Government signed a global MoU backing a global agreement to transition to zero-emission freight vehicles.
- On 11 May 2026, the SA Government announced it had reached a commercial agreement with bulk fuel supplier IOR to source and store the state's diesel reserve using spare capacity at IOR's existing storage facility at Port Bonython in the Upper Spencer Gulf.
