Hi s 22(1)(a)(ii)

I hope this email finds you both well!

We have been alerted of an event in the Prime Minister's electorate, part of a 2025 election commitment. While the contract for this project hasn't been signed yet, it's anticipated that it will be signed by mid-September.

Please advise if the PM would be interested in attending as the Australian Government representative?

Event date/time: 1:00pm - 2:30pm Saturday 12 September 2026
(Alt: 10:00am - 11:30am Saturday 19 September 2026 or 10:00am - 11:30am Saturday 26 September 2026)

Event type: Community Engagement
Event responsibilities: Photo opportunity
Location:45 Wharf Street, Marrickville, NSW 2204

LGA: Inner West
Funding program: Major and Local Community Infrastructure Program (MLCIP).

AG Funding: $6,050,000 committed by the Australian Government

Apologies for the short notice on dates, this has just come through to us. Should none of the proposed dates suit, I would encourage your office to get in touch with Council to find a mutually acceptable date and then let me know. The best Council contact can be found in the attached event opp form.

Should the PM attend I'll ensure appropriate event materials are prepared.

Any questions please reach out!

Kind regards

Description
The project will deliver a refurbished Marrickville Golf clubhouse and precinct, creating an enhanced environment for the community to enjoy gatherings for recreation, alfresco dining, celebrations, festivals, community meetings and environmental initiatives. The clubhouse interior refurbishment includes upgrades to furniture, lighting and fixtures, bar area, office and community meeting rooms, a balcony and community facilities, with an expanded alfresco area for community events. In addition, there will be a repositioned pro-shop and machinery shed with all-access public toilets, a dog walking station and a dedicated space for local environmental groups. The upgrades will also feature a stormwater harvesting scheme to provide water security for the course and the surrounding environment with a transformation of the natural vegetation areas within the golf course into a Botanic Garden of Native Species, providing the opportunity to deliver educational and environmental benefits to the community. The project will increase the club's ability to earn revenue, attract more members, visitors and casual golfers, improve community access to open space, recreation and social connectivity and allow for greater year-round usability of facilities due to modernised, weather-resilient spaces.
